

Masterfoods USA would like to inform you that PEANUTS ARE NOW PART OF THE RECIPE for “SNICKERS” ALMOND Bars. To make this change more obvious for consumers we have not only bolded all of the allergens (including peanuts) in the ingredient statement but have also put a statement on the front of the package stating, “This Product Contains Peanuts.”

For the most accurate information always read the label. Anyone with any additional questions may call Masterfoods USA at 1-800-552-2794.
